A man in a dark suit and white shirt is sitting on a chair with a large, shaggy fur throw. He is looking out a large window at a city skyline. The scene is dimly lit, with the light coming from the window, creating a silhouette effect on the man. The background shows several tall buildings in a city.

No8 Design has developed award winning identity and branding systems, promotional materials, environmental graphics, packaging, and publication designs for a broad range of companies and individuals that exceed expectations.

This creative and innovative approach has resulted in experiences that established and evoked a passion for brands spanning the globe.

"How do I creatively word anything about the most creative man I've ever met? We've worked together for over 30 years, and I've been honored to watch his expertise blossom beyond anything I'd ever expect in the marketing industry. Anyone who hires Scot Hester has no idea that they have hired the Picasso of the marketing world. If you are reading this and you just hired Scot....Whatever he quotes you, pay him double and just say thank you."

Craig A. Tanner
Print Basics, Inc

"During the start up of my two newest businesses Scot Hester, owner of No.8 Design, provided invaluable services to me. Scot designed my logo, letterhead, business cards, envelopes, and website. But Scot's contributions went further than his beautiful graphic and layout work. Scot pushed me to only accept the best quality layouts, paper, and graphic designs, explaining that these things in many cases are my face to the customer. Having such high quality business collateral reflects positively on me, and the professionalism of my companies. So you see Scot, went beyond the role of a graphic artist and vendor, he was and is a valued business advisor."

James A. Robertson
Trinity River Associates

"Having used their services for the past few years, I can offer nothing but the strongest recommendation for No8 Design. And I've worked with firms from Madison Ave. to Main St. during my career. Here's my overall assessment: extremely professional and extraordinarily talented... what more could I want?

If you want the best, you want No8 Design."

Paul M. Tuten
AT&T

"I just wanted to take the time to say thanks for the wonderful design work that you have done for my company, American Debt Solutions.

Your design work has hit the mark consistently, both in branding, and in the overall professional look and feel that we wanted to create. The newsletters dovetailed with the web site perfectly, as well. You understood exactly what we have been attempting to convey the first time we discussed our site conceptually. It was a pleasure to work with a firm where work is done professionally, and on time."

Thanks again, and we look forward to a long and prosperous relationship.

Jay Barshop
American Debt Solutions

"I prepare this letter with the greatest amount of gratitude. Scot has not only created the image of Clear Evaluations and other identity programs for various businesses but has earned his position with us as a vital partner. I contribute my business growth to Scot's talent, experience, and knowledge in marketing. Scot has a very personal approach to understanding my specific needs, and since 2005 has continued to exceed my expectations with every project. I have gained a true friend that cares about me and my business."

Leslie Jeter
Clear Evaluations

"Having worked with many designers in the past, has lead me to really appreciate those who excel at their craft. But, talent is only one of the many benefits when working with No8 Design. Actually working with someone who truly cares about the success and identity of your business, as No8 Design does, is a rare find. The list would be too long for this testimonial of the many times No8 Design has gone "above and beyond" for me in the past eighttteen years. THANK YOU!"

Dr. Tony W. DeRamus
Sandstone Chiropractic

"Scot is more than a graphic artist who creates quality images. He's a marketer and an innovator whose is passionate about the projects he works on."

Melissa Walters
MW Realty Group

"I am not creative enough to find the words to describe Scot's innate ability to capture exactly what I want and then to somehow make it better than what I thought I wanted to begin with! One look at his work will convey his abilities better than I ever could. What I can articulate is the incredible level of service and professionalism that he provides. Over the years and on multiple logos, websites, and various marketing materials; Scot has over-delivered on each project. Whether he had to stay up late, do more than what was initially discussed, or take a broken project and fix it, he always delivers on his promise "to make you happy" and "happy" is typically an understatement. I have been spoiled by the combination of his ability and incredible level of service to the point that using anyone else would be like trading in a Ferrari for a Schwinn. If you're looking for someone who can take your company image from wherever it is to greatness, you can stop looking. If you've found Scot Hester, you've found the best."

In 1987, Helix Well Ops began riserless light well intervention operations in the North Sea with the Seawell. Shell was a critical partner, supplying market support and assisting in the development of safe, reliable and effective methodologies for a full range of subsea well intervention operations. This included achieving together such world firsts as the first coiled tubing intervention from a monohull vessel with an HP riser in Dec 1987, and the first CT and well clean-up operations from a monohull with an improved HP riser in June 2001. Shell assisted Helix Well Ops to grow the riserless intervention technique in the North Sea by being first to commit large utilization contracts rather than spot work in 1998, with large increases coming in 2005 and still up until the present day.

Benefits for Your People and Organization

Upon completion of NExT's Multidomain Shale Training Program, geoscientists and engineers will have the knowledge necessary to work in teams to

- map, model, and characterize sweet spots
- identify well spacing and pad locations more accurately
- place wells and extract hydrocarbons at a lower cost and with a greater overall success rate
- optimize well designs and drilling trajectories
- enhance completion and stimulation strategies
- improve operational efficiencies
- prevent environmental impact.

About NExT

NExT provides cost-effective technical training and professional-development services to the oil and gas industry, training more than 10,000 E&P professionals each year.

Drawing on a global network of world-class instructors and industry experts with decades of experience in unconventional plays, NExT training programs expedite the learning experience by combining

- science and theory in the classroom
- software, workflows, and technology in lab and field environments
- practical experience in projects and presentations.

With a portfolio of more than 400 practical courses, training programs, and competency services, NExT can help you develop the professional expertise needed to meet today's increasingly complex industry challenges.

Develop core competencies to meet unconventional challenges.

Building Shale Expertise Fster

Successfully and economically characterizing, completing, and producing complex shale reserves demands a thorough understanding of science, fit-for-purpose technology, and specialized expertise. Developing and honing that expertise is a challenge facing asset managers everywhere.

The Multidomain Shale Training Program from NExT, a Schlumberger company, is the fastest, most effective way of equipping your team with the knowledge necessary to efficiently and properly identify and develop unconventional plays. Learn about these complex reserves from industry experts with decades of experience as well as by modeling actual shale prospects, visiting core laboratories, taking field trips, and ultimately presenting a pilot project developed in class.

Our hands-on approach builds practical experience.

Learning by Doing

Learn science behind E&P concepts → Apply enabling technologies and workflows → Practice using field data

Integrated 12-Week Program

Geoscience Program Engineering Program

A proven formula for accelerated shale development

The Multidomain Shale Training Program is divided into two modules: Geoscience and Engineering. Both include common workflows, applications using field data, and courses that enhance the competencies and skills needed to work effectively in multidisciplinary shale teams.

During the 12-week program, your teams will

- gain essential scientific knowledge
- get hands-on exposure to a wide range of software applications, laboratory techniques, tools, and field-technology applications
- visit renowned Schlumberger research, testing, and operations centers
- apply their learning to a real-world project.

We teach more than 10,000 E&P professionals every year.

ELEMENTS OF FINANCIAL FREEDOM

ELEMENTS OF FINANCIAL FREEDOM

WE ARE DEDICATED TO PROVIDING
A DEBT FREE FUTURE FOR OUR CUSTOMERS.
ENJOY LIFE AGAIN!

- 1 Fast Track™ Program**
This program can help you get out of debt much faster than you would on your own. We are a not-for-profit organization which allows us to receive the most favorable interest rates with your creditors. We have certified credit counselors on staff, who can customize your monthly payment to get you out of debt as soon as possible.
- 2 Wealth Building™ Program**
What would you do with an extra \$100, \$200, \$300 in your pocket each month? Clearly, you could spend a bit more on some of the things that you desire that you cannot afford now. Or, you could invest the money and become financially secure at some point in the future. Did you know that Albert Einstein, the greatest mind of the 20th Century, said that his greatest discovery was "the compounding of interest"? What he meant was by saving a little bit of money each month, you can accumulate a great deal of wealth. By working with our certified credit counselors, we can either reduce the interest rate that you pay on your credit card debt and/or reduce your monthly payments.

- 3 EZPayment™ Program**
How many credit card bills do you pay each month? One? Two? More? Are all of your credit card payments due on the same date? We suspect that even if you have sufficient funds to pay your credit card bills, you would still incur interest and late fees just trying to keep up with the varying payment dates. As though telemarketing calls weren't bad enough, now you have the creditors calling demanding payment.

Our EZPayment™ Program will take care of all of this for you. You will make one monthly payment to us, allowing us to make your payments on or before the date(s) they are due. No more late fees, no more interest charges and NO MORE ANNOYING credit calls. When you join our program, all of your financial headaches will disappear and you can get back to enjoying life.

- 4 Financial Improvement™ Program**
How is your credit rating? If you are reading this, chances are it's not as good as you'd like it to be. Our certified credit counselors can work with you to get you out of debt and improve your credit rating. A poor credit rating can mean you pay a higher interest rate on your mortgage than you should; it may also mean you are denied credit you really need. A low credit rating can negatively impact your financial welfare for years to come. The Financial Improvement™ Program can transform the bad impact into a positive impact with one simple call.

- 5 Customized Solutions™ Program**
Are you wondering why we have certified credit counselors on staff? The reason is all of our customers' needs are different and unique. We do not force you into our solutions, we ask you a series of questions to understand your specific needs. This includes special interest rates with your creditors and a monthly payment plan to suit your circumstances. Once we have developed your customized solution plan we confirm that you are in agreement with our plan. The best part of our Customized Solutions™ Program is that we are there for you after program implementation to make certain that your debt management plan continues to work for you.

CALL US TODAY AT 1-800-246-4019 OR VISIT US ON THE WEB WWW.ADSHQ.ORG TO LEARN MORE ABOUT HOW WE CAN CUSTOMIZE A DEBT MANAGEMENT SOLUTION FOR YOU.

Implementing the Budgeting Process

The most important step in the debt resolution budgeting process is to set up a budget. A budget is a plan of action that sets out how you will spend your money. It is a tool that helps you to control your spending and to live within your means.

AS A GENERAL GUIDELINE, USE THE PERCENTAGES LISTED AND SEE IF YOU ARE LIVING WITHIN YOUR MEANS.

| | |
|----------------|------|
| Income | 100% |
| Basic Mortgage | 28% |
| Property Taxes | 13% |
| Utilities | 10% |
| Food | 10% |
| Transportation | 10% |
| Entertainment | 10% |
| Medical | 10% |
| Life Insurance | 10% |
| Life Savings | 10% |

We are dedicated to providing a debt free future for our customers.

Why You Should Get Out of Debt Now!

Have the credit and company work.

For the purpose of this article, you have the same \$1000 to take care of the cost of the month and the following month. If you are not getting out of debt now, you will be paying a total of \$1000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$2000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$3000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$4000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$5000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$6000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$7000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$8000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$9000 in the next month. So, if you are not getting out of debt now, you will be paying a total of \$10,000 in the next month.

BUDGETING FOR PROSPERITY

SEVEN STEPS TO FOLLOW TO ACHIEVE

1. Make a complete list of your liabilities.

2. Subtract your total monthly expense from your total monthly income.

3. Determine your credit history.

4. Length of credit history.

WHAT YOUR BANKS DO NOT WANT YOU TO KNOW ABOUT YOUR CREDIT SCORE

SO HOW DO YOU IMPROVE YOUR CREDIT SCORE?

Have a generally low your FICO score is determined.

The Right Choice
Can Change Everything™

Our chiropractic division has been described as the "next generation of chiropractic," and for good reason. With a laser focus on better outcomes for our patients, Sandstone Chiropractic has continually sought out innovation while carrying on the founding principles of chiropractic's natural approach to health.

With an increase in the usage of medications and preventable surgeries, we are more focused than ever in our mission of employing innovative strategies to help ensure that our patients continue to live a life full of vitality and physical functioning.

Our company mission is to provide patients with the most attentive and highest quality care in all that we do, and Sandstone Family Medicine is no different. We understand that building lasting relationships is the foundation of the patient experience, as well as providing transparent and compassionate care.

Our promise is that we will always listen to your needs while encouraging you to become an active participant in some of the most important decisions for you and your family. You deserve the best of care, and it is our job at Sandstone Family Medicine to make sure you receive it.

When speaking of innovation, regenerative medicine tops the list. This exciting new field has been called the "future of medicine" by many experts. Simply harnessing the power of nature, you are equipped with the potential to regrow, repair or replace damaged cells and tissues giving your body the tools to heal.

Although the applications are numerous, Sandstone Regenerative Medicine is focused on orthopedic conditions such as joint degeneration and other debilitating arthritic conditions, as well as aesthetic purposes such as hair restoration and facial rejuvenation.

For years, experts believed that the brain could not change. We now know that this is not true. At Sandstone Center for Neurofeedback it is our mission to support you in healing your brain in the most natural way possible. We do this by combining our cutting-edge neurofeedback training with condition specific supportive therapies.

Research has shown dramatic improvement with the symptoms of ADHD, anxiety, depression, traumatic brain injuries, and many other brain-based conditions when using neurofeedback alone. However, at Sandstone we take it a step further by closely examining each patient individually and developing care plans tailored to their needs.

Patient Centered. Results Driven.™

Our treatments are personalized to your individual needs and goals. We use the latest advances in technology to ensure your experience is safe, comfortable, and as effective as possible.

Our team has undergone multiple hours of advanced training to remain ahead of the latest techniques and trends.

This is The Sandstone Way. Uniquely described by the people we serve, and perfected by our incessant desire for constant improvement.
